

Lufkin-RMT's **Field Service** Team Offers Powerful Advantages Through Our Industry Expertise, Aftermarket Support Capabilities and Personalized Solutions for Your Turbomachinery Equipment.

Lufkin-RMT's field service technicians have a combined 40 years of experience in turbomachinery repair for the air separation and petrochemical industries. This includes start-up support, installation, commissioning, trouble shooting and problem solving. We offer on-site corrective solutions spanning the globe. Lufkin-RMT wants to partner with you in your scheduled or unplanned maintenance shut downs and help solve your vibration and operational problems. Lufkin-RMT will take the lead in keeping your equipment running while offering suggested upgrades to improve equipment performance. With an ISO 9001:2008 certified repair and manufacturing facility located in Wellsville, NY, we can handle any situation from start to finish.

**Maintenance of a Demag
Integral Compressor**

Reaching Out To Our Customers

No matter where or when problems arise, our quick response team will be there for you:

- Technical advice on system upgrades
- Analysis on bearings and seals during equipment overhauls
- Trouble shooting vibration and operational problems
- Cryogenic expander overhauls
- Turbine, compressor and gear maintenance
- On-site equipment inspection

Experience In The Field

Our field technicians have combined rotation equipment experience that spans from cryogenic expanders to centrifugal compressors. Original equipment manufacturers include:

Turboexpanders		Compressors	
ACD	Lotepro	Allis Chalmers	Hitachi
Air Products	Mafi-Trench	Clark	Ingersoll Rand
Atlas Copco	Rotoflow	Demag	Joy
Cryostar	Worthington	Dresser Datum	Lamson
		Elliott	

Our service technicians understand air separation and petrochemical plants. They are OSHA safety certified for both on-shore and off-shore facilities. Lufkin-RMT's goal is to find the most economical solutions to your challenges involving rebuilds, on-site repairs and scheduled maintenance shut downs. Our professionalism, as well as Lufkin-RMT's engineering, repair and manufacturing support, makes us the right choice for your field service needs.

Complete aftermarket support is available 24/7.

Lufkin-RMT's field service team performs a changeout of a Worthington Turboexpander.
